PAMIR FINEST CASHGORA

The name Pamir is a tribute to the plateau from which the precious Cashgora fibre originates, a rare and extraordinary raw material. The result of the crossbreeding between cashmere goats and mohair goats, cashgora combines the best of both: the softness of cashmere with the subtle sheen and durability of mohair. Carefully harvested in these unspoiled lands, the fibre is then skillfully transformed at Lanificio Fratelli Piacenza, where it takes shape into a fabric designed for distinctive jackets and coats. The passion for exceptional raw materials, combined with centuries of expertise in their selection, guides Lanificio Fratelli Piacenza on an ongoing journey of discovery, across places, traditions, and artisanal techniques, to shape the future of textile excellence, rooted in tradition.

Overcoat 100% Cashgora **Jacket 50% Cashgora 50% Wool**

Four-season Blazer: Perfect for year-round wear thanks to its balance weight and fresh handfeel.

Natural elasticity: Long, resilient, and lively fibre with a natural ability to regain its shape.

Comfort & Breathability: a structure that ensure freshness and adaptability across all seasons.

Timeless Versatility: perfect for any occasion, it effortlessly balances sophistication with style.

Refined Colors: from the armored navy blue jacket to the exclusive range of the coat.

A fibre for connoisseurs who value uniqueness and elegance.
